

August 13, 2024

Dear Valued Customer,

STERIS will phase-out seven SKUs in the portfolio beginning January 1, 2025. These products will be available until our inventory is depleted. By January 1, 2025, you will need to update your ordering system to include the replacement item on the STERIS item master file as indicated below. Alternate products are available beginning September 1, 2024.

"Phasing Out"	Description	Qty / Box	Alternate Product	Description	Qty / Box	Estimated Timing

STERIS is discontinuing the sale of these products based on the introduction and availability of alternative STERIS products that will meet the most current global standards and provide the latest technologies.

STERIS strives to deliver the highest level of Customer support in the industry. As part of that commitment, we want to provide you with notice of these product discontinuations. We recognize the impact that product obsolescence has on your operations.

If you have any questions or require further support, please contact your STERIS Sales Representative.

Sincerely,

Michael McGrath
Vice President, Canada
