Important Update: INTERCEPT™ Bedside Kit Basin

Dear Valued Customer,

We are writing to inform you of an upcoming update to the INTERCEPT™ Bedside Kit. As part of this change, the basin included in both standard and custom kits will transition to STERIS-branded basins.

In addition, the basin component will be updated to a 750 mL size, replacing the current 500 mL basin. This change also includes a new product number for the basin component. **This update does not impact product performance, intended use, packaging, or quality.**

Current Basin

New Basin (STERIS Branded)

Please refer to the table below for a summary of the affected products, including the current product descriptions, new product numbers, and updated product descriptions.

Current		New	
Affected Product Number	Affected Product Description	New Product Number	New Product Description
100900	INTERCEPT Bedside Kit – Flat Sponge	100900	INTERCEPT Bedside Kit – Flat Sponge
100902	INTERCEPT Bedside Kit – Round Sponge	100902	INTERCEPT Bedside Kit – Round Sponge
BMP-477	500mL Basin (Clear)	4004657	750mL Basin (Clear)

Your facility may begin receiving kits with updated branding starting **June 1, 2026**.

No action is required. However, we recommend updating your internal records to reflect the new basin product number listed above.

STERIS remains committed to providing the highest level of Customer support. Please contact your local STERIS representative if you have any questions.

Sincerely,

Michael McGrath
Vice President, Canada
